

**Nothing Burns
Brighter Than
Our Commitment
To Meeting Your Needs.**

Today,
the bar
is set higher
than ever in
the construction
industry and your
fire protection system
provider has to be equally
willing to reach for a higher
standard. As a recognized leader in
fire protection in the Southern United
States, S&S Sprinkler brings exceptional
quality and strong values to every job. We
offer true "one-stop shop" capability - from
custom design, fabrication and installation to
inspection and ongoing maintenance. With four offices
strategically located throughout the region, we are
uniquely positioned to meet all of your needs. When you
want a fire protection provider that delivers more, talk to
the professionals at S&S. We don't just meet code.
We exceed your expectations.

AUTOMATIC SPRINKLERS

- Wet, Dry, Pre-Action & Deluge Sprinkler Systems
- Foam Systems
- Standpipes
- Fire Mains & Fire Hydrants
- Fire Pumps & Storage Tanks
- Fire Hoses & Cabinets
- Fire Monitors

We design, install, inspect and service a complete line of automatic sprinkler systems. Whether it is new construction, a retrofit, or a renovation, we have the experience, knowledge and technical expertise to create and install the optimum system for your project. Using advanced computer and CAD technology, our team will provide you with a timely cost and needs analysis, as well as design services. Our trained and licensed staff will ensure that your system complies with NFPA standards and all federal, state and local codes specific to your industry. Regardless of the scope and size of your project, we will create the customized sprinkler solution that's right for your business. Doing a job right never burns time or budgets.

FIRE SUPPRESSION
